
Holtkoetter

Supernova S-DTW

Oberfläche

- aluminio
- latón
- platino
- negro
- bronce
- blanco

Technical details

País de la Fabricación	Alemania
fabricante	Holtkoetter
diseñador	Holtkötter
año	2024
material	Aluminium
Potencia en vatios	16 W
LED #	inclusive
Indice de reproduccion cromatica	>90
El flujo luminoso en lm	2500
Temperatura de color en grados Kelvin	2.200 - 2.850
protección	IP20
Volumen de suministro	LED
entrada de tensión	230 - 240 Volt
Atenuación	Toque atenuadores de luz en el palillo
Dimensiones del soporte de la lámpara	21 cm
cabeza del alumbrado masa	18 cm
reemplazo de la bombilla:	en el sitio mismo
Dimensions	H 105-175 cm

Descripción

With 2500 lumens and a colour rendering index of RA>90, the Holtkötter Supernova S-DTW leaves nothing to be desired in terms of the light emitted. The lamp head, which can be rotated and swivelled in all directions, allows the light to be individually directed. The light can be infinitely adjusted using a centrally mounted touch dimmer. When dimmed, the light colour of the integrated LED changes to a warmer tone (from 2,850 Kelvin warm white to 2,200 Kelvin warm white) thanks to dim-to-warm technology. The last light setting used is saved using the memory function. The height is adjusted using an integrated, invisible lift mechanism. The Holtkötter Supernova S-DTW is available in matt aluminium, anodised brass, platinum, white, bronze and black.
