Description

The Foscarini Chouchin Reverse 1 is one of the three Chouchin lights which designed the designer Ionna Vautrin as a new edition. The white diffuser consists of blown glass painted, has below an orange ring and the light shines directly down from. The supplied cable and the corresponding rope suspension can help to a maximum suspension of 340 cm of light. In deeper areas, the cable can be shortened as required. This lamp has included an exchangeable LED retrofit as light source.
