

Byok

Nastrino Pico wall lamp

Farbe

- black
- aluminum

Technical details

Country of Manufacture	 Germany
Manufacturer	Byok
Designer	Kai Byok
protection	IP20
Scope of delivery	LED
voltage suitability	230 - 240 Volt
Projection in cm	35
material	aluminum
dimming	gesture control
LED	replaced by professional
Colour Rendering Index	90
Color temperature in Kelvin	Dim to warm
system performance	2 x 3.6 Watt
Total luminous flux in lm	610
light distribution	directly
Dimensions	H 30 cm

Description

The Byok Nastrino Pico wall lamp is a lamp characterised by its functionality. The light has two LED zones in the upper arm. Thanks to the joint, the wall light can always be adjusted anew and the light can be aligned as desired. The design is very slim, because this lamp consists of simple ground aluminium profiles. These different surfaces are on offer: aluminum matt and black matt. Byok offers this lamp also with a table clamp, an USM adapter and a classic table base. The Pico wall lamp is the smaller one of two lamps out of this series.

The Nastrino Pico wall lamp is dimmed with gesture control. During dimming thanks to the Dim2Warm technology, the light takes on a warmer colour, changing the light colour of the LEDs from 2,700 Kelvin extra warm white to 2,100 Kelvin warm white.
