### Description

The Licht im Raum Master LED floor lamp has two long-life LEDs, emitting both downward and upward glare-free light. This floor lamp is equipped with an integrated potentiometer in a small box between the lamp rods with which the brightness can be individually adjusted. Uplight and downlight can be dimmed separately. The light is switched on and off via an on/off switch on the supply line. The lens in light head is swivelable. It is offered in the following surfaces: Brushed stainless steel, hand-polished stainless steel, matt black, white, natural brass and black / gold. The lamp base is always black.
