Manufacturer	Serien Lighting
Designer	Uwe Fischer
voltage suitability	110 - 240 Volt
material	aluminum, glass
dimming	dimnable with a trailing edge dimmer and with a leading edge dimmer
Colour Rendering Index	>97
bulb exchange	on site itself

Description

This Serien Lighting Annex LED ceiling light has a clear, mouth-blown glass shade and a reflector made of polished aluminum. The light is mainly emitted directly downwards by this lamp. Only a small part of the light is also diffusely emitted to the side and upwards.

The Annex Ceiling LED is offered in three sizes: Small with 14 cm diameter, Medium with 22 cm diameter and Large with 27.5 cm diameter. In each size, this lamp is operated with an integrated LED. Depending on the size, the integrated LED has a different output. This lamp is available with a colour temperature of 2,700 Kelvin extra warm white or 3,000 Kelvin warm white. As standard, the ceiling lamp can be dimmed on site with a trailing edge or leading edge phase dimmer.

On request, the Medium and Large versions are also available as DALI dimmable versions. These require a 5-wire mains supply cable. In addition to this ceiling lamp, lamps with other reflectors from the Annex series are also available. These have a different light distribution. In addition, the Annex Ceiling Halogen with sockets for halogen lamps is also offered from the Annex series.
