Description

The Licht im Raum White Moons 3x3 wall light is equipped with a total of nine lamp shades, which emit light in different directions. This creates a special game of light reflections. Daniel Klages created the lighting series in 2016. But the White Moon 3x3 won the Awards "Innovation Prize for Architecture and Engineering 2016" and the "Muuuz International Award (MIAW 2016)" and was nominated for the "German Design Award 2017" and the "Manufaktur product of the year 2016". In addition to this version, the wall lamp is offered in other sizes. This lamp is supplied with a polished stainless steel wall bracket. On request, the lamp is also available with a brass wall bracket.
