## **Description**

The Licht im Raum Ocular Spot 1 Serie 100 round is the more powerful of two efficient wall-ceiling radiators with a round wall mount. The light body and the ceiling canopy are made of stainless steel. The lamp is available in polished or matt nickel-plated.

The spot is equipped with modern LED technology and a traversable lens. The glass lens has a diameter of 100 mm and bundles the light so that it is directed precisely to the planned location. The light has a rotating and tilting joint. An LED with a beam angle of 70  $^{\circ}$  is integrated into the spotlight.
