Description

The Luceplan Hope Terra is a floor lamp. It stands on three legs. It has a total height of 198 cm and a diameter of 72 cm on the shade. Numerous Fresnel lenses are attached to the light on pairs of arms. The lenses produce glittering reflections on the walls as well as on the ceiling and on the floor.

The Hope floor lamp is infinitely dimmable by a dimmer integrated in the cable. Like all lamps from this series, the floor lamp was modeled by Francisco Gomez Paz and Paolo Rizzatto on the famous Hope diamond. The series has already received several prizes such as the Red Dot Design Award and the Compasso d'Oro.
