Description

The Stchu-Moon 09 by Catellani & Smith is a floor lamp, outside with a structure made of waxed rough iron and the inside with a deliberately irregular surface. The lamp shade is always black on the outside, different versions are available for the inside: silver, gold and copper. The inner side of the shade is covered with silver leaf, gold leaf or copper.

This floor lamp has a height of 200 cm and a diameter of 33 cm. A square lamp base with dimensions of 50 x 50 cm gives the floor lamp its stability. In addition to LEDs, the light includes also a candlestick with wax candle. The candle can be exchanged. A built in cable dimmer regulates the light intensity of the LEDs, which are inserted in reflectors made of steel.
