### Description

The Marset Scantling A wall lamp combines a lamp arm made of oak wood with a lamp shade made of aluminum. The lamp shade can be rotated variably so that the light can be realigned at any time. This lamp is available in white or black. The lamp shade and the wall bracket are in this surface. The on/off switch is integrated into the wall bracket. LED reflector lamps are suitable as light sources. The name of the Scantling A lamp comes from an old unit of measurement for wood or stone.
