## **Description**

The Vistosi Aurora PP 30 is a ceiling lamp that can also be used as a wall lamp. It has a diameter of 30 cm and a height of 10 cm. Its lamp shade is made of white satin mouth-blown glass with a crystal glass rim. A halo light effect is created around the lamp on the wall or ceiling. The Aurora PP 30 is available as E27 lamp or two LED lamps. One LED lamp is dimmable with a trailing edge dimmer, the other LED lamp is 0-10 volts dimmable. Both LED lamps are supplied with a colour temperature of 2,700 Kelvin extra warm white as standard, but both are also available with 3,000 Kelvin warm white on request. The E27 lamp has an E27 socket and can also be operated with a replaceable LED retrofit. The two LED lamps have a ceiling or wall bracket made of metal in matt white, the E27 lamp has a bracket in glossy white.
