Description

The Cini & Nils Passepartout 25 pendant lamp emits light downwards and upwards at the same time. The light is focussed in both directions by a lens. The luminaire has a diameter of 25 cm and a height of 2.3 cm. The Passepartout 25 is available in four versions: matt white, matt black, polished chrome and polished gold. The support element for the lens is made of diamond-cut aluminium in all versions except the gold version. The gold version has a supporting element in matt brass. The luminaire itself is always made of steel.

The maximum overall height of the luminaire is 250 cm, the cables can be shortened if required. An accessory is available on request that allows two Passepartout luminaires to be mounted on a common power connection.
