Drop Linear PF/07L

Farbe

- transparent
- green
- blue
- matt white

Technical details

Country of Manufacture	 Spain
Manufacturer	Bover
Designer	Christophe Mathieu
Year of design	2017
protection	IP20
Scope of delivery	LED
voltage suitability	110 - 240 Volt
material	aluminum, Borosilicate glass, Iron, polycarbonate
dimming	DALI dimmable
Wattage	22.4 W
LED	inclusive
Colour Rendering Index	90
Color temperature in Kelvin	2,700 extra warm white
canopy dimensions	12 cm
Shade diameter	11 cm
Shade height	11 cm
bulb exchange	at the manufacturer / at the factory
Total luminous flux in lm	2,604
light distribution	room light
Ceiling rail length	140 cm
total height	54 cm

Description

The Drop Linear PF/07L from the Spanish lighting manufacturer Bover is an LED pendant lamp with seven individual pendants mounted on a black 140 cm long aluminium ceiling rail. The distance between the individual pendants is 20 cm. The power connection is located on a decentralised canopy with a diameter of 12 cm. The glass of the Bover Drop Linear PF/07L made of borosilicate glass can be removed for replacement or cleaning. The seven lamp shades made of borosilicate glass each have a diameter of 10.7 cm and are 11.2 cm high. This LED pendant lamp is available in the shade colours transparent, matt white, green and blue. The distance between the ceiling and the lower edge of the individual pendant lamps is 54 cm. 13 different cable lengths are available on request. You can therefore choose the length of your lamp to suit your individual requirements. When ordering, please specify the required length/distance between the ceiling and the lower edge of the lamp under the item Order overview in the Order comments field.
