IP20 protection LED Scope of delivery

voltage suitability 110 - 240 Volt

material acrylic glass, aluminum, glass

surface white

dimmable with a trailing edge dimmer and dimming

with a leading edge dimmer

Wattage 40 W LED inclusive

Colour Rendering >90

Luminous flux in lm 4,900

Color temperature in

Kelvin

2.700 extra warm white

bulb exchange on site itself

Dimensions H 20 cm | B 30 cm | L 30 cm

Description

The light is emitted by the Serien Lighting Reflex2 Ceiling M200 onto a prismatic reflector inside the lamp, from which the light is reflected into the room. The emitted, indirect light is absolutely glare-free. The reflector of the Reflex2 Ceiling M200 is available in matt white, gold, silver or white. Each reflector provides a different lighting effect of the ceiling light.

The integrated LED has a colour temperature of 2,700 Kelvin extra warm white. On request, the Reflex2 Ceiling M200 is also available with 3,000 Kelvin warm white or as a Tunable White version. With Tunable White technology, the light can be controlled from incandescent warm to cool white. On request, the lamp is also offered dimmable with DALI, 0-10 Volt or Casambi module.
