Luminous flux in lm 3,910

Color temperature in

Kelvin

Dim to warm

**bulb exchange** on site itself

**Dimensions** H 30 cm | B 20 cm | L 20 cm

### **Description**

This Serien Lighting Reflex2 Ceiling S300 distributes its light onto a prismatic reflector, from which it is directed into the room absolutely glare-free. The reflector is available in matt white, gold, silver or white. The colour of the reflector surface influences the lighting mood created by the ceiling light.

Thanks to the dim to warm function, the dimming behaviour of classic incandescent lamps, which is perceived as pleasant, is imitated when dimming. When dimmed down, the light of the Reflex2 Ceiling S300 not only becomes darker, but also changes its colour temperature from 2,200 Kelvin extra warm white to 3,000 Kelvin warm white. The lamp is also available on request with 2,700 Kelvin extra warm white, 3,000 Kelvin warm white, DALI, 1-10 Volt or with Casambi module.
