

Serien Lighting

Curling Ceiling new silver M

Farbtemperatur in Kelvin

- Dim to warm
- 2,700 extra warm white
- 3,000 warm white

Technical details

Country of Manufacture	 Germany
Manufacturer	Serien Lighting
Designer	Jean-Marc da Costa und Manfred Wolf
Year of design	2020
protection	IP20
Scope of delivery	LED
voltage suitability	110 - 240 Volt
Diameter in cm	25
material	aluminum, glass
dimming	dimnable with a trailing edge dimmer and with a leading edge dimmer
Wattage	20 W
LED	inclusive
Colour Rendering Index	>97
bulb exchange	on site itself
Dimensions	H 11 cm Ø 25 cm

Description

The Serien Lighting Curling Ceiling new silver M has a diameter of 25 cm and is 10 cm high. This ceiling light is available with a colour temperature of 2,700 Kelvin extra warm white, 3,000 Kelvin warm white or with dim to warm function. In the version with dim to warm function, the dimming behaviour of classic incandescent lamps, which is perceived as pleasant, is imitated during dimming. This means that the light not only becomes darker when dimmed down, but also changes its colour temperature. Thus, when dimming this version, the colour temperature changes from 1,800 Kelvin extra warm white to 3,000 Kelvin warm white.
