

Knapstein

SVEA-80

Technical details

Country of Manufacture	 Germany
Manufacturer	Knapstein
Designer	Knapstein
protection	IP20
Scope of delivery	LED
voltage suitability	230 - 240 Volt
Diameter in cm	80
material	metal
surface	nickel
height adjustment	height determinable
dimming	gesture control
Wattage	68 W
LED	inclusive
Colour Rendering Index	>90
Luminous flux in lm	6,922
Color temperature in Kelvin	2,700 extra warm white
canopy dimensions	24 cm
bulb exchange	at the manufacturer / at the factory
total height	30 - 235 cm
Dimensions	H 3.4 cm Ø 80 cm

Description

The Knapstein SVEA-80 pendant lamp has a diameter of 80 cm. The ring-shaped lamp emits its light simultaneously upwards and downwards. Its uplight and downlight can be switched separately and infinitely dimmed via gesture control. The sensor area for gesture control is located on the top and bottom of the lamp. The light is switched on and off with a wiping hand movement in the sensor area. In order for the lamp to be dimmed continuously, the hand is held in the sensor area for a longer period of time.

The surface of the SVEA-80 pendant lamp is matt nickel-plated. The pendant lamp by Knapstein is height-determinable in total height between 30 cm and 235 cm with the stop sleeves on the underside of the ceiling canopy. By pushing in the stop sleeves, the cables can be pushed or pulled into the desired position. The lamp is available with a diameter of 40 cm or 60 cm. The series also includes the SVEA-L40 and the SVEA-L60 with infinitely variable height adjustment by pulling or lifting the lamp. On request, the SVEA is also available in other lengths or finishes.
