

Holtkoetter

Supernova W

Oberfläche

- aluminum
- brass
- platinum
- black

Version

- with switch / push button dimmer
- without switch

Technical details

Country of Manufacture	 Germany
Manufacturer	Holtkoetter
Designer	Holtkötter
Year of design	2020
Protection class / IP rating	IP20
Contents of the package	LED
voltage suitability	230 - 240 Volt
Projection in cm	5 - 25
material	metal
Wattage	18 W
LED	inclusive
Colour Rendering Index	>90
Luminous flux in lm	2,600
Color temperature in Kelvin	2,700 extra warm white
Reflector diameter	23 cm
bulb exchange	at the manufacturer / at the factory
Dimensions	H 29 cm

Description

The Holtkötter Supernova W is a wall lamp with a movable reflector. The reflector can be inclined by 180 degrees. Depending on the set inclination, the light can be emitted from the reflector onto the wall, upwards or directly to the side. This creates different lighting effects on the wall. The Supernova W is available in two versions: with switch/push button dimmer or without switch. In the version with switch/push button dimmer, the switch is integrated on the wall bracket. The wall light is operated with an integrated LED. The LED has a colour temperature of 2,700 Kelvin extra warm white and can be replaced if necessary. The Supernova W by Holtkötter is offered with anodised brass, black, platinum and matt aluminum surfaces.
