Mikado L

Oberfläche

- aluminum
- black

Schirmfarbe

- brown
- ivory

Technical details

Country of Manufacture	 Germany
Manufacturer	Byok
Designer	Kai Byok
Year of design	2020
protection	IP20
Scope of delivery	LED
voltage suitability	230 - 240 Volt
material	aluminum, Textile
dimming	gesture control
Wattage	51 W
LED	inclusive
Color temperature in Kelvin	Dim to warm
Shade diameter	70 cm
Shade height	28 cm
Total luminous flux in lm	5,920
Dimensions	H 175 cm

Description

The Byok Mikado L floor lamp is 175 cm high. Its lamp shade has a diameter of 70 cm at the bottom and 62 cm at the top. The shade height is 28 cm. A central light source and a downward directed spotlight are integrated in the lamp shade. The light is emitted mainly downwards and upwards. The two LED light sources can be dimmed separately by gesture control. Thanks to the Dim-to-warm technology, dimming changes the light colour of the integrated LEDs to a warmer tone (from 2,700 Kelvin extra warm white to 2,100 Kelvin extra warm white). The Mikado L is available with natural glossy anodised aluminum and matt black anodised surfaces. Its lamp shade is offered in the colours ivory and dark brown. Other shade colours are also available on request. In addition to this floor lamp, the Mikado XL is also available with a height of 200 cm.
