<b>total height</b>	max. 61 cm
<b>Dimensions</b>	H 12 cm   B 34 cm

### Description

The Less'n'more Eichendorff Athene Bedside Table EI-A consists of a wooden bedside table with an integrated Athene lamp. The bedside table has a matt white coating and is 12 cm high. It has a width of 34 cm and a depth of 22 cm. An extendable bookmark made of satin-finished stainless steel is included.

The integrated Athene lamp can be mounted on the left or right side of the Eichendorff bedside table. Its flexible lamp arm can be bent and stretched as desired. When the arm is extended to its maximum, the bedside table and lamp together have a height of 61 cm. The lamp arm is available in the following colours: aluminum, textile black, white, anthracite, blue, green, red and brown. The lamp arm is offered in special colours on request.

The lamp head and rod of the Athene recessed lamp are offered in the surfaces aluminum and black. A push button is located on the lamp rod with which the lamp can be switched and dimmed. The beam angle of the light can be adjusted continuously between 25 and 100 degrees by turning the glass lens out of or into the lamp head. With a larger beam angle, the light is distributed over a larger area.

The Eichendorff Athene Bedside Table EI-A can be connected via a black supply cable. In addition to the conventional power supply, it is also possible to operate the recessed lamp via a USB connection. Less'n'more also offers the Eichendorff bedside cabinet with an integrated Zeus lamp.
