## Anchoring for foundation-cornet-b-27-b-52-b-77

### Technical details

<b>Country of Manufacture</b>	 Spain
<b>Manufacturer</b>	Bover
<b>material</b>	steel

### Description

If you want to anchor the lamp reliably in the concrete, the use of a foundation anchor is practically indispensable. This way, the construction gets the right hold to be armed against loads (e.g. by wind). With this foundation anchor, the outdoor lamps Bover Cornet B/27 Outdoor, B/52 Outdoor and B77/Outdoor can be firmly anchored in the foundation.
