Seventies pendant lamp LED dimmable

Oberfläche

- black
- white

Farbtemperatur in Kelvin

- 2,700 extra warm white
- 3,000 warm white

Technical details

Country of Manufacture	 Germany
Manufacturer	Mawa
Designer	Jan Blieske
Designer 2	Jan Dinnebier
Year of design	2020
protection	IP20
Scope of delivery	LED
voltage suitability	230 - 240 Volt
Diameter in cm	9
material	aluminum
beam angle	30 degrees
cable length	200 cm
height adjustment	height determinable
dimming	on site dimmable with a trailing edge dimmer
Wattage	25 W
LED	inclusive
Colour Rendering Index	>90
Dimensions	H 18 cm Ø 9 cm

Description

The Mawa Seventies pendant lamp LED emits its light directly and bundled downwards. Due to the compact design of its lamp shade, no screws are visible. The shade has a height of 18 cm and a diameter of 9 cm. The lamp is offered in the powder-coated surfaces black or white matt. On request, it is also available in other RAL colours.

The Seventies pendant lamp has an integrated LED with a colour temperature of 2,700 Kelvin extra warm white or 3,000 Kelvin warm white. On request, it is also available with 4,000 Kelvin white. This lamp can be dimmed on site with a trailing edge phase dimmer. A DALI dimmable version is also available on request. The lamp's colour rendering index is Ra >90. On request, it is also offered with Ra >95, which is closer to natural light (Ra 100).

The 200 cm long cable can be shortened if necessary. As standard, the Seventies pendant lamp LED is supplied with a beam angle of 30 degrees. With a larger beam angle, the light is distributed over a larger area. Optionally, the cylindrical ceiling light can also be ordered with a beam angle of 16 or 22 degrees in the field Order Comment. The pendant lamp is also available from Mawa as a recessed lamp.
