

Domus

Bolino

Technical details

| | |
|------------------------|---|
| Country of Manufacture |  Germany |
| Manufacturer | Domus |
| Year of design | 2006 |
| protection | IP20 |
| Scope of delivery | Leuchtmittel/ Bulb |
| voltage suitability | 230 - 240 Volt |
| Projection in cm | 90 |
| material | aluminum, Lunopal, wood |
| height adjustment | height adjustable |
| dimming | cord dimmer |
| socket/light fixture | G9 |
| switchability | on the light |
| Power (max. Watt) | 60 Watt |
| shade color | white |
| Shade diameter | 22 cm |
| total height | 150 cm |

Description

The Domus Bolino is a floor lamp made of beech wood, adjustable in height between 115 cm and 150 cm. The maximum projection of this floor lamp is 90 cm. The light source of the Bolino floor lamp by Domus is surrounded by a white lamp shade made of Lunopal. Lunopal is a high-quality shade material that was developed by Domus. This material is thermally highly resilient and can withstand temperatures of up to 100°C. Lunopal is white transparent and gives the impression of fine Japanese paper. The completely environmentally friendly material is UV-resistant and does not yellow. The lampshade of the Domus Bolino has a diameter of 22 cm. This lamp has a G9 socket that can be operated with halogen lamps or LEDs. The Bolino floor lamp is regulated with a LED-compatible dimmer on the supply cable, not with a sensor dimmer on the lamp arm (as shown in the picture).
