## Julii Wall Lamp

### Wandhalterung Oberfläche

- Maron
- beech
- white

### Technical details

<b>Country of Manufacture</b>	 Germany
<b>Manufacturer</b>	Domus
<b>Designer</b>	Stefan Wehrmann
<b>Year of design</b>	2009
<b>protection</b>	IP20
<b>Scope of delivery</b>	Leuchtmittel/ Bulb
<b>voltage suitability</b>	110 - 240 Volt
<b>Projection in cm</b>	18
<b>material</b>	Lunopal, Textile, wood
<b>dimming</b>	dimmable on site
<b>socket/light fixture</b>	E27
<b>Power (max. Watt)</b>	75 Watt
<b>shade color</b>	white
<b>Dimensions</b>	H 30 cm   B 16 cm

### Description

A single strip of Lunopal, intertwined twice, creates an airy, light structure. Open at the bottom and top, the lamp casts a charming play of light and shadow on the wall. Lunopal is a high-quality shade material developed by Domus. This material is thermally highly resilient and can withstand temperatures of up to 100°C. Lunopal is white transparent and gives the impression of fine Japanese paper. The environmentally friendly material is UV-resistant, washable and does not yellow. The real wood wall bracket of the Domus Julii is optionally available in beech, maron-oil or white lacquer. This lamp is 30 cm high, 16 cm wide and has a projection of 18 cm. This wall lamp has an E27 socket and can be operated with conventional halogen bulbs as well as with LED retrofit bulbs.
