

Lichtlauf

eNormaJeane 125

Oberfläche

- black / copper
- white
- white / copper

Technical details

Germany **Country of Manufacture** Manufacturer Lichtlauf 2015 Year of design

protection IP20 Scope of delivery LED

voltage suitability 230 - 240 Volt material aluminum, steel cable color transparent cable length 200 cm

height adjustment height adjustable

on site dimmable with a trailing edge dimming

dimmer

LED inclusive **Colour Rendering Index** 90

Color temperature in

3,000 warm white Kelvin

bulb exchange at the manufacturer / at the factory

2 x 12 Watt system performance total height 200 cm

Dimensions H 12 cm | B 30 cm | L 125 cm

Description

Like a dress in the updraft above an underground shaft, the eNormaJeane by Lichtlauf floats above the table and sends powerful, soft light downwards. Copper, the colour contrast between top and bottom is what creates the tension. Each lamp, individually shaped by hand, is unique. eNormaJeane is used wherever larger, long tables are to be complemented with a light sculpture. The lampshade made of aluminium is available in brown-black or white on the upper side. The underside of the lampshade is hand-applied with copper leaf metal or in white. The two integrated LEDs, each with an output of 12 watts, have a colour temperature of 3,000 Kelvin warm white. The light of the integrated LEDs of this dimmable lamp is characterised by a very good colour rendering with a high colour rendering index of Ra 90. The lampshade of the eNormaJeane is 125 cm long, 30 cm wide and approx. 12 cm high. Due to the handcrafted manufacturing process, there may be irregularities in the leaf-finished surface. The total height of the lamp is max. 200 cm, the rectangular ceiling suspension is 70 cm long, 5 cm wide and 3 cm high. The height of the eNormaJeane 125 is adjusted directly on the two wire ropes with which the lamp is suspended from the ceiling. The eNormaJeane 125 by Lichtlauf is also available with a 160 cm long lampshade.
