Description

The Domus Zep 9 Graphite pendant lamp is suspended with two cables and can be individually set in its total height during installation. The slim silhouette of the pendant lamp impressively combines pure design and innovative technology. From the outside, the lamp shade is in graphite, from the inside, it is available in wool white or orange. The end pieces of the pendant lamp are framed by two solid moulded parts made of oak. The lamp in wool white has end pieces in black oak.

The Domus Zep 9 pendant lamp emits its light homogeneously and glare-free. The light source is a power-efficient, dimmable LED with a colour temperature of 2,700 Kelvin extra warm white. The integrated LED is characterised by very good colour rendering with a high colour rendering index of Ra > 92. Domus also offers the Zep 13 with a length of 130 cm from the lamp series.
