

# Holtkötter

## Avior

### Version #

- S
- M
- L

### Oberfläche

- brass
- platinum
- bronze
- black
- silver

## Technical details

<b>Country of Manufacture</b>	 Germany
<b>Manufacturer</b>	Holtkötter
<b>Designer</b>	Holtkötter
<b>Year of design</b>	2024
<b>Materials</b>	Metall
<b>height adjustment</b>	height adjustable
<b>Dimmability</b>	gesture control
<b>LED #</b>	inclusive
<b>Colour rendering index (CRI / Ra)</b>	>90
<b>color temperature (kelvin)</b>	2.200 - 2.850
<b>Protection class / IP rating</b>	IP20
<b>Contents of the package</b>	LED
<b>voltage suitability</b>	230 - 240 Volt
<b>canopy</b>	36,5 cm x 7,5 cm x 5,2 cm
<b>bulb exchange</b>	on site itself
<b>Dimensions</b>	H 40 - 160 cm

## Description

The height of the Holtkötter Avior pendant lamp can be adjusted by pushing it up and pulling it down. The overall height can therefore be adjusted between 40 cm and 160 cm. A roll-up mechanism ensures that the cables disappear into the canopy and that the light always maintains a horizontal position. The Holtkötter Avior pendant lamp emits light both upwards and downwards. The uplight and downlight can be steplessly switched and dimmed separately using gesture control. To do this, a hand is held in the sensor area of the gesture control below the lamp. When dimming, the light colour of the integrated LED changes to a warmer tone (from 2,850 Kelvin to 2,200 Kelvin) thanks to dim-to-warm technology. The last set light intensity is saved using the memory function and automatically reset the next time the light is switched on. Three profile lengths - 82,5 cm (Avior S), 122,5 cm (Avior M) and 162,5 cm (Avior L) - and five different surfaces - anodised brass, black, matt silver, platinum and bronze - enable unrestricted use in rooms of all kinds.
