

Holtkoetter

Janus H

Struktur

- negro
- aluminio
- negro / latón

Technical details

País de origen	 Alemania
Fabricante	Holtkoetter
Diseñador	Holtkötter
año	2024
Materiales	Metall
ajuste de altura	altura ajustable
Regulación de intensidad	Sección de fase
Potencia en vatios	2 x 18 W
LED #	inclusive
Índice de reproducción cromática (CRI / Ra)	>90
El flujo luminoso en lm	5400
Temperatura de color en kelvin	2.200 - 2.850
Índice de protección / Protección IP	IP20
Contenido del paquete	LED
entrada de tensión	230 - 240 Volt
cabeza del alumbrado masa	18 cm
reemplazo de la bombilla:	en el sitio mismo
Dimensions	H 99 - 155 cm

Descripción

The Holtkötter Janus H ceiling lamp has height-adjustable telescopic arms attached to the side of a rectangular ceiling canopy, which can be swivelled by up to 160° using joints. These swivelling telescopic arms make it easy to illuminate even large tables. The lamp heads, which can be continuously rotated and swivelled in all directions and contain a replaceable LED panel, allow the light to be individually directed. When dimmed, the light colour of the integrated LED changes to a warmer tone (from 2,850 Kelvin warm white to 2,200 Kelvin warm white) thanks to dim-to-warm technology. With a light output of 5,400 lumens and a colour rendering index of over 90, the Holtkötter Janus H provides powerful light that can be emitted directly or indirectly as required. The Janus H ceiling lamp is height-adjustable from 99 cm to 155 cm by extending or retracting the telescopic arm. The ceiling canopy is 33 cm long, 6.2 cm wide and 3.6 cm high. The Janus H is available in the following surface textures: matt aluminium, black/brass anodised and black.
