Descripción

The Christmas tree stand Halleluja from Keilbach is very easy to assemble without tools. Simply put the three metal parts together to form a beautiful star. Then the tree is wedged with wooden wedges. These wooden wedges are supplied with the tree.

Halleluja is made of powder-coated steel and is available in green, red and silver.

Dimensions: 50 × 12 cm, 4.4 kg

The Christmas tree stand is suitable for trunk diameters up to 7 cm.

Halleluja was awarded the Red Dot Award 2012.

If the Christmas tree stand is not needed, it can be folded flat in its packaging.
