

Luceplan

Hope Suspension 61

Technical details

País de origen	 Italia
Fabricante	Luceplan
Diseñador	Paolo Rizzatto
Diseñador 2	Francisco Gomez Paz
año	2009
Índice de protección / Protección IP	IP20
Contenido del paquete	Leuchtmittel/Bulb
entrada de tensión	110 - 240 Volt
Diámetro en cm	72
material	acero, policarbonato
superficie	transparente
longitud del cable	270 cm
Ajuste de altura	altura determinada
Atenuación	dimnable en el sitio con reguladores de control de fase
Base / Portalámparas	E27
Alimentación (máx. Watt)	250 Watt
El flujo luminoso en lm	2.135
Temperatura de color en grados Kelvin	2.800 blanco cálido
distribución de la luz	indirectamente
Dimensions	H 49 cm Ø 72 cm

Descripción

The Luceplan Hope Suspension 61 is the smallest pendant lamp from this comprehensive series of lamps. It has a diameter of 61 cm and a height of 49 cm. Like the other lights in this series, it consists of a three-dimensional steel structure with transparent arms attached. On the arms, thin Fresnel lenses are again attached, which break the light like glass through prism-treated films. This creates numerous, impressive reflections on the walls.

The Hope Suspension 61 was created by the designers Francisco Gomez Paz and Paolo Rizzatto in the year 2009, following the inspiration of the Hope Diamond, one of the most expensive and famous diamonds in the world. The collection has already won several design prizes such as the Red Dot Design Award 2010 and the Compasso d'Oro ADI Award 2011. The cable with a length of 270 cm can be shortened if necessary. The light can be dimmed on site.
