The homogeneous ceiling illumination also reaches deep into the room. The ceiling floodlight is available in the powder-coated surfaces white matt, dark bronze and DB702 grey-metallic. It is manufactured from a single piece of aluminum using the folding technique. The One Piece 8 is operated with an integrated LED, which has a colour temperature of 3,000 Kelvin warm white. On request, the lamp is also offered with 2,700 Kelvin extra warm white or 4,000 Kelvin white. As standard, the wall light is dimmable on site with a trailing edge phase dimmer.
