### Descripción

The Bover Domita S/20/7L has a diameter of 60 cm. This pendant lamp consists of seven individual pendant lights, which are suspended from the canopy in different lengths. The brown canopy has slots for the cables to allow for adjustability and individual placement. Each of these single pendants has a diameter of 20 cm and is 25.5 cm high. Each of the seven lamp shades made of completely natural beech wood is carefully finished by hand. The light of the Bover Domita S/20/7L is emitted directly downwards, but also diffusely through the gaps in the mesh of the lampshade and at the same time distributed to the sides. The light sources in the GU10 sockets inside the lamps are replaceable. The total height of this pendant lamp is 224 cm. The black cables of this pendant lamp can be shortened if required.
