### Descripción

The Bomma Blimp Wall is a wall lamp with a mouth-blown glass. It has a diameter of 45 cm and a depth of 24.5 cm. The light is emitted through the glass homogeneously and without glare in all directions, while the glass grooves create light reflections on the lamp itself. Each glass is hand-blown individually, therefore small bubbles or irregularities can occur in the glass. The Blimp wall lamp is available in the glass colours clear or amber. Its wall mount is made of black matt powder-coated metal. The lamp is powered by an integrated LED with a colour temperature of 2,700 Kelvin extra warm white.
