

Domus

Iris Wall Lamp

Technical details

País de la Fabricación	 Alemania
fabricante	Domus
año	1997
protección	IP20
Volumen de suministro	Leuchtmittel/ Bulb
entrada de tensión	110 - 240 Volt
Proyección en cm	16
material	Lunopal, madera, Textil
Atenuación	Regulable en el sitio
base/portaámparas	E27
Alimentación (máx. Watt)	75 Watt
Color de la pantalla	blanco
Dimensions	H 24 cm B 24 cm

Descripción

The lampshade of the Domus Iris wall lamp opens upwards and is held by a rounded wooden element made of beech. The white shade of the Domus Iris wall lamp is made of Lunopal. Lunopal is a high-quality shade material that was developed by Domus. This material is thermally highly resilient and can withstand temperatures of up to 100°C. Lunopal is white transparent and gives the impression of fine Japanese paper. The completely environmentally friendly material is UV-resistant, washable and does not yellow. The lamp is 24 cm wide, 24 cm high and has a projection of 16 cm. The Domus Iris has an E27 socket and can be operated with conventional halogen bulbs as well as with LED retrofit bulbs.
