### Descripción

The Licht im Raum Vivio R800 pendant lamp consists of a ring shape made of aluminum and stainless steel. The lamp has a diameter of 80 cm. The ring-shaped pendant lamp is 8 cm high and has a width of 5 cm. The Vivio R800 is suspended on three cables with a length of 300 cm and can be individually set in its total height during assembly.

The Vivio R800 is offered in the surfaces white, black, gold and champagne. Twelve LEDs are integrated as illuminants, nine of which emit their light downwards and three of which distribute their light upwards. This also illuminates the ceiling. The light is focussed and evenly emitted through lenses. The Vivio R800 pendant lamp can be regulated with a push button dimmer on the lamp.
