### Description

The Ingo Maurer Fly Candle Fly is an unusual and very novel wax candle. This candle will enchant you and your guests with an optical illusion. Fly Candle Fly seems to float in the room and illuminates it with a pleasant candlelight. The Fly Candle Fly candle is attached to a rope so fine that you hardly need distance to see the rope anymore. The candle has a height of 30 cm and burns for approx. 20 hours.

The Ingo Maurer Fly Candle Fly is available in three versions:

- Set 1 includes a candle with complete accessories (a 3 m rope, a drip catcher, a holder, screw hooks and dowels).
- Set 2 includes one candle with all accessories plus one spare candle.
- Set 3 contains two replacement candles without accessories.
