Technical details

Pays de fabrication	 Allemagne
Fabricant	Keilbach
Créateur	Peter Keilbach
Diamètre en cm	58
matériel	acier Inoxydable, bois
Dimensions	H 166 cm Ø 58 cm

Description

Cross my heart from Keilbach is an asymmetrical coat rack, which is both functional and very appealing in design. It consists of filigree wooden rods and is in oiled ash.

Cross my heart works differently from every point of view and so the fantasy of the observer is challenged again and again. The coat rack can be pushed together to save space and, if necessary, positioned with a twist. The six rods and three hooks offer plenty of options for hanging coats, jackets or bags. In addition, coat hangers can be accommodated on the three stainless steel cross-braces.
