Technical details

Pays de fabrication	 Italie
Fabricant	Luceplan
Créateur	Alberto Meda, Paolo Rizzatto
année	1985
Indice de protection / Indice IP	IP20
Contenu de la livraison	Leuchtmittel/Bulb
aptitude de tension	110 - 240 Volt
matériel	aluminium, nylon
Socle / Douille	GY6.35
commutabilité	sur la tête de lampe
Puissance (max. Watt)	10 Watt
longueur du bras	45 + 45 cm
Pied de lampe dimensions	15 cm
tête de luminaire masse	10 cm
répartition de la lumière	directement

Description

The Luceplan Berenice Tavolo is a table lamp with two movable lamp arms, which can be oriented in any direction. The length of each arm is 45 cm, there is also on offer a smaller version, the Piccola, with shorter arms. This is the version with a table stand, but it is also offered a lamp with fixing pin, which is built into the table.

Different surfaces and reflectors are available. The reflectors satin white, yellow, rose and sage green are made of glass, the reflectors in aluminum, brass and black are made of metal. Most of the light is emitted directly, the glass reflectors also produces a nice indirect light effect above the lamp head. On the light head, an on / off switch is mounted. The light can be used with halogen lamps or LEDs. Alberto Meda & Paolo Rizzatto created the light in 1985.
