Fireplace Light my Fire

Ausführung

- sans
- avec grill

Technical details

Pays de fabrication	 Allemagne
Fabricant	Keilbach
Créateur	Peter Keilbach
matériel	tole d'acier nue, se corrode au fil du temps
Dimensions	H 20 cm B 80 cm L 80 cm

Description

The fireplace Light my Fire from Keilbach wants to arouse enthusiasm. The design skilfully plays with the geometric figures circle and square.

The fireplace consists of 3 mm thick sheet steel, which is dark and bright in its original state. This corrodes in the course of time and the fireplace gets its individual rust-coloured patina. Light my Fire can be used outdoors all year round without any problems. Even soot, ash and grease cannot harm the deliberately rusty appearance of the fireplace. However, the corroded material leaves traces on the surface.

The fireplace measures 80 × 80 × 20 cm and weighs 31 kg. Light my Fire can be screwed to the surface using existing drill holes. With the optional barbecue rust (42 × 40 cm, 1.5 kg) made of stainless steel, which can be ordered, the fireplace becomes a fully-fledged barbecue.
