

Luceplan Hope Suspension 110

Technical details

Pays de fabrication	Italia
fabricant	Luceplan
concepteur	Paolo Rizzato
concepteur 2	Francisco Gomez Paz
année	2009
protection	IP20
Contenu de la livraison	Leuchtmittel/Bulb
aptitude de tension	110 - 240 Volt
Diamètre en cm	110
matériel	acier, polycarbonate
surface	transparent
longueur de câble	60 - 410 cm
réglage de la hauteur	hauteur déterminée
atténuation	sur place dimmable avec gradateurs de commande de phase
base/version	E27
La température de couleur en Kelvin	2.800 blanc chaud
Les performances du système	3 x 250 Watt (max.)
Flux lumineux total en LM	6.405
répartition de la lumière	indirectement
Dimensions	H 66 cm Ø 110 cm

Description

The Luceplan Hope Suspension 110 has a diameter of 110 cm and a height of 66 cm. This makes it the second-largest lamp in this series. Like the other pendant lights, it is equipped with a three-dimensional steel structure with transparent arms arranged on it. On the arms Fresnel lenses are placed, which break the light like glass and create impressive reflections on the walls.

The cable length is at maximum 410 cm and can be shortened if necessary. Francisco Gomez Paz and Paolo Rizzato created the Hope series after inspired by the famous Hope Diamond, one of the most expensive diamonds in the world. Since 2009, the series has already won numerous prizes, among others the Red Dot Design Award and the Compasso d'Oro ADI. Apart from this medium-sized pendant lamp also other sizes are offered.
