

Marset

Nenufar 2 white

Technical details

Pays de fabrication	 Espagne
Fabricant	Marset
Créateur	Joan Gaspar
année	2013
Indice de protection / Indice IP	IP20
Contenu de la livraison	LED
aptitude de tension	230 - 240 Volt
matériel	Fer, polycarbonate
réglage de la hauteur	hauteur déterminée
Puissance en Watt	5,4 W
LED	y compris
La température de couleur en Kelvin	2.700 extra blanc chaud
canopée Dimensions	18 cm, hauteur 4 cm
Version	blanc
Diamètre de l'ombre	17 cm
Les performances du système	2 x 9 Watt
Flux lumineux total en LM	1.400
répartition de la lumière	directement
hauteur totale	347 cm
Dimensions	H 47 cm B 22 cm L 25 cm

Description

The outcome of the designer's arduous quest to create a fixture that seems to float on air, the Marset Nenufar 2 takes its name and its delicate shape from the water lily. This lamp consists of a chromium-plated rod with two black or white polycarbonate shades. Each disc-shaped shade is distinct, separated from the other in a way that the downward beams do not intersect or interfere, but combine for a uniform, direct beam. The result is an item that is midway between decorative and architectural, and be applied to both purposes with ease. Sober and well finished, the Nenufar utilizes top-quality materials and the power of LED to radiate an exquisite luminosity and create warm, welcoming atmospheres.

This lamp is in its element installed in a series - creating areas lit at different heights and with various combinations of discs - or on its own as a surprising, well balanced and subdued centerpiece. The lamp is on offer with one, two, or three black discs supported by a polished chrome rod. This lamp is also available in pre-set configurations of 3, 5, 7, and 9 units, to ease installation. On request, there are offered surface-mounted and recessed canopies with which the single lamps can be combined with each other.
