| <b>atténuation</b>                      | dimmerable sur place   |
| <b>Socle / Douille</b>                  | E27  |
| <b>Puissance (max. Watt)</b>            | 77 Watt  |
| <b>Diamètre de l'ombre</b>              | 25 cm  |
| <b>Dimensions</b>                       | H 30 cm  |

## Description

The Vistosi Bolle PL G is a ceiling lamp with a shade made of mouth-blown crystal glass. The balaton technique is used for the processing, whereby air bubbles are enclosed into the glass for a special texture. This texture multiplies the reflections on the surface of the shade and creates a halo effect on the ceiling around the lamp. The Bolle PL G ceiling lamp is available in crystal transparent and white. The metal parts of the lamp are satin nickel-plated in both versions. This light can be operated also with E27 LED retrofit lamps.
