Description

The Siam 200 is manufactured by the Spanish company Bover and is based on a design by Joana Bover. The ceiling bracket of the Bover Siam 200 is made of metal and is available with a surface in nickel. The light of this ceiling lamp is emitted centrally directly downwards and spreads simultaneously all around to the sides and to the ceiling. The Bover Siam 200 has a diameter of 200 cm, the total height of this ceiling lamp is 47.5 cm. The light's small distance of only 9.4 cm from the ceiling creates a radiant circle of light on the ceiling. This lamp with a lamp shade height of 38.1 cm is available in the shade colours white and cream. The Bover Siam 200 has eight E27 sockets and can be operated with LED retrofit lamps. This on-site dimmable lamp is the smaller of two versions of the Bover Siam 200. With its light distribution and size, the ceiling light is particularly suitable for large rooms.
