

Knapstein SVEA-80

Technical details

Pays de fabrication	Allemagne
fabriquant	Knapstein
concepteur	Knapstein
protection	IP20
Contenu de la livraison	LED
aptitude de tension	230 - 240 Volt
Diamètre en cm	80
matériel	métal
surface	nickel
réglage de la hauteur	hauteur déterminée
atténuation	contrôle gestuel
Puissance en Watt	68 W
LED	y compris
Indice de rendu des couleurs	>90
Flux lumineux en lm	6.922
La température de couleur en Kelvin	2.700 extra blanc chaud
canopée Dimensions	24 cm
remplacement des ampoules :	chez le fabricant / à l'usine
hauteur totale	30 - 235 cm
Dimensions	H 3,4 cm Ø 80 cm

Description

The Knapstein SVEA-80 pendant lamp has a diameter of 80 cm. The ring-shaped lamp emits its light simultaneously upwards and downwards. Its uplight and downlight can be switched separately and infinitely dimmed via gesture control. The sensor area for gesture control is located on the top and bottom of the lamp. The light is switched on and off with a wiping hand movement in the sensor area. In order for the lamp to be dimmed continuously, the hand is held in the sensor area for a longer period of time.

The surface of the SVEA-80 pendant lamp is matt nickel-plated. The pendant lamp by Knapstein is height-determinable in total height between 30 cm and 235 cm with the stop sleeves on the underside of the ceiling canopy. By pushing in the stop sleeves, the cables can be pushed or pulled into the desired position. The lamp is available with a diameter of 40 cm or 60 cm. The series also includes the SVEA-L40 and the SVEA-L60 with infinitely variable height adjustment by pulling or lifting the lamp. On request, the SVEA is also available in other lengths or finishes.
