## Description

The Holtkötter Epsilon RR 83cm is a pendant lamp with a length of 83 cm. By pushing up or pulling down the lamp, its overall height can be adjusted continuously up to a maximum of 150 cm. The light is always glare-free and emitted directly downwards. It can be dimmed continuously with gesture control by holding one hand under the lamp. The sensor area for gesture control is located in the centre of the lamp. When dimming, the light colour of the integrated LED changes to a warmer tone (from 2,700 Kelvin to 2,200 Kelvin) thanks to Dim-to-warm technology. A memory function saves the luminous intensity last set and automatically selects it, the next time the light is switched on. The Epsilon RR 83cm is available in black, matt silver, anodised brass and platinum. The lamp series also includes pendant lamps with a length of 123 cm or 163 cm.
