Technical details

Pays de fabrication	 Allemagne
Fabricant	Holtkötter
Créateur	Holtkötter
année	2020
Indice de protection / Indice IP	IP20
Contenu de la livraison	LED
aptitude de tension	230 - 240 Volt
matériel	métal
réglage de la hauteur	réglable en hauteur
atténuation	dimmerable sur place avec commande gradateur de phase inverse
LED	y compris
Indice de rendu des couleurs	>95
La température de couleur en Kelvin	Dim to warm
canopée Dimensions	Longueur 66 cm, largeur 9 cm, hauteur 4 cm
Diamètre du réflecteur	9 cm
remplacement des ampoules :	chez le fabricant / a l'usine
Les performances du système	2 x 16,6 Watt
Flux lumineux total en LM	3.320
hauteur totale	160 cm

Description

The Holtkötter Aura P2 pendant lamp consists of two lamps mounted on a rectangular canopy. This lamp has two metal reflectors. The reflectors are available in the colours brass anodised, black, platinum and aluminum matt. In addition, the pendant lamp is offered in brass anodised, black, platinum and matt aluminum. The canopy is supplied in the matching finish.

The two pendulums of the Aura P2 can be individually adjusted in their total height up to a maximum of 160 cm. The height is adjusted by simply pushing upwards or pulling downwards a pendulum. With an integrated roll-up mechanism, the cables disappear into the canopy and the lamps always remain at the desired height.

The Aura P2 from Holtkötter can be dimmed on site using a trailing edge phase dimmer. Thanks to the Dim-to-warm technology used, the light colour of the integrated LEDs changes to a warmer tone when dimming (from 2,900 Kelvin warm white to 1,800 Kelvin extra warm white). A memory function saves the last light intensity setting and automatically sets it the next time the light is switched on. The series also includes the Aura P2 glass with two hand-blown glasses. Pendant lamps with three lamps on one canopy are also available.
