Technical details

Pays de fabrication	 Allemagne
Fabricant	Holtkötter
Créateur	Holtkötter
année	2020
Contenu de la livraison	LED
aptitude de tension	230 - 240 Volt
matériel	métal
réglage de la hauteur	réglable en hauteur
atténuation	dimmerable sur place avec commande gradateur de phase inverse
LED	y compris
Indice de rendu des couleurs	>95
La température de couleur en Kelvin	Dim to warm
canopée Dimensions	38 cm
Diamètre du réflecteur	9 cm
remplacement des ampoules :	chez le fabricant / a l'usine
Les performances du système	3 x 16,6 Watt
Flux lumineux total en LM	4.980
hauteur totale	160 cm

Description

The Holtkötter Aura R3 pendant lamp consists of three lamps mounted on a round canopy. This pendant lamp has three reflectors made of metal, which are available in the colours brass anodised, black, platinum and aluminum matt. The pendant lamp is also offered in anodised brass, black, platinum and matt aluminum. The canopy is supplied with the surface finish that matches the lamp.

Each pendulum of the Aura R3 can be adjusted in its total height up to a maximum of 160 cm by simply pushing it upwards or pulling it downwards. With an integrated roll-up mechanism, the cables disappear into the canopy and the lamps always remain horizontal at the desired height.

The Aura R3 from Holtkötter can be dimmed on site using a trailing edge phase dimmer. When dimming, the used Dim-to-warm technology changes the light colour of the integrated LEDs to a warmer tone (from 2,900 Kelvin warm white to 1,800 Kelvin extra warm white). A memory function is used to save the luminous intensity last selected and automatically selects it the next time the pendant lamp is switched on. Also from the series, the Aura R3 with with three mouth-blown glasses and the Aura P3 with a rectangular canopy are available. Furthermore, pendant lamps with two lamps on one canopy are also on offer.
