

# Bopp

## Flair Pendant Lamp

### Dimmbarkeit

- gradable avec variateur à coupure de phase et à commande de phase
- avec module Casambi
- avec module ZigBee

## Technical details

<b>Pays de fabrication</b>	 Allemagne
<b>Fabricant</b>	Bopp
<b>Indice de protection / Indice IP</b>	IP20
<b>Contenu de la livraison</b>	LED
<b>aptitude de tension</b>	230 - 240 Volt
<b>matériel</b>	aluminium
<b>surface</b>	aluminium poli
<b>réglage de la hauteur</b>	hauteur déterminée
<b>Puissance en Watt</b>	39 W
<b>LED</b>	y compris
<b>Indice de rendu des couleurs</b>	80
<b>La température de couleur en Kelvin</b>	2.700 extra blanc chaud
<b>canopée Dimensions</b>	21 cm
<b>Flux lumineux total en LM</b>	5.979
<b>hauteur totale</b>	max. 140 cm
<b>Dimensions</b>	B 30 cm   L 120 cm

## Description

The Bopp Flair is a spirally curved pendant lamp with an integrated LED. The LED runs completely around the inside of this curved lamp made of smoothed aluminium. This illuminates the lamp itself and at the same time emits warm white light all around. The integrated LED with an output of 39 watts has a colour temperature of 2,700 Kelvin extra warm white. The Bopp Flair is 120 cm long, 30 cm wide and is suspended with three cables from a canopy with a diameter of 20.6 cm and a height of 4 cm. The height of the Bopp Flair can be adjusted by shortening the cables to a maximum of 140 cm from the ceiling to the lower edge of the lamp. The lamp is available in three versions: dimmable via the existing house electrics with a trailing edge and / or leading edge phase dimmer (not included in the scope of delivery), with Casambi module or with ZigBee module. With a Casambi module, it is possible to operate the lamp via smartphone or tablet using the Casambi app via Bluetooth. Casambi technology also offers the option of switching the lamp on at specific times via a timer. ZigBee enables wireless communication via WLAN between a Smart Media device and existing home technology. Using ZigBee, lamps, electric shutters, heating and loudspeakers, among other things, can be controlled via voice control.
