

Holtkötter

Supernova DW

Oberfläche

- aluminium
- laiton
- platine
- noir

Technical details

Pays de fabrication	 Allemagne
Fabricant	Holtkötter
Créateur	Holtkötter
année	2019
Puissance en watts	1 x 40 + 1 x 71 W
LED #	inclus
Indice de rendu des couleurs (IRC / Ra)	>90
Flux lumineux en lm	14700
Température de couleur en kelvins	2.200 - 2.900
Indice de protection / Indice IP	IP20
Contenu de la livraison	LED
aptitude de tension	230 - 240 Volt
Projection en cm	71
matériel	métal
atténuation	Touchez gradateurs sur le bâton de lumière
Pied de lampe dimensions	42 cm
tête de luminaire masse	42 cm
remplacement des ampoules :	sur le site meme
Dimensions	H 185 cm

Description

The Holtkötter Supernova DW arched lamp has a lamp head consisting of two parts: an outer ring and an inner disc. The two parts of the lamp head each have an integrated LED. The LEDs can be operated and adjusted via a touch dimmer panel centrally located on the luminaire rod. The outer and inner rings can be switched together or separately and dimmed continuously. When dimming, the light colour of the integrated LEDs changes to a warmer tone (from 2,900 Kelvin warm white to 2,200 Kelvin warm white) thanks to dim-to-warm technology. The last light setting used is saved using the memory function. As the inner and outer rings can be swivelled independently of each other, the light emission can be directed both directly and indirectly. The Supernova DW floor lamp from the German manufacturer Holtkötter is available in matt aluminium, platinum, anodised brass and black.
