

Holtkoetter

Avior

Version

- S
- M
- L

Oberfläche

- laiton
- platine
- bronze
- noir
- argent

Technical details

Pays de fabrication	 Allemagne
Fabricant	Holtkoetter
Créateur	Holtkötter
année	2024
Matériel	Metall
réglage de la hauteur	réglable en hauteur
gradabilité	controle gestuel
LED #	inclus
Indice de rendu des couleurs (IRC / Ra)	>90
Température de couleur en kelvins	2.200 - 2.850
Indice de protection / Indice IP	IP20
Contenu de la livraison	LED
aptitude de tension	230 - 240 Volt
baldaquin	36,5 cm x 7,5 cm x 5,2 cm
remplacement des ampoules :	sur le site meme
Dimensions	H 40 - 160 cm

Description

The height of the Holtkötter Avior pendant lamp can be adjusted by pushing it up and pulling it down. The overall height can therefore be adjusted between 40 cm and 160 cm. A roll-up mechanism ensures that the cables disappear into the canopy and that the light always maintains a horizontal position. The Holtkötter Avior pendant lamp emits light both upwards and downwards. The uplight and downlight can be steplessly switched and dimmed separately using gesture control. To do this, a hand is held in the sensor area of the gesture control below the lamp. When dimming, the light colour of the integrated LED changes to a warmer tone (from 2,850 Kelvin to 2,200 Kelvin) thanks to dim-to-warm technology. The last set light intensity is saved using the memory function and automatically reset the next time the light is switched on. Three profile lengths - 82,5 cm (Avior S), 122,5 cm (Avior M) and 162,5 cm (Avior L) - and five different surfaces - anodised brass, black, matt silver, platinum and bronze - enable unrestricted use in rooms of all kinds.
